Dear Mr. Hagler,

I believe you might be interested in slides 17-19 of this public document from BDCP, which is a summary of the effects analysis regarding changes in outflow as a result of BDCP operations under analysis (Winter/Spring and Summer/Fall).

http://bdcponline.com/Libraries/SC_Agendas_and_Handouts/10-21-10_REVISED_SC_Roll_Up_Presentation_-_5.sflb.ashx

You might also be interested in page 9 of this BDCP document from February 2010, linked below, which identifies a proposed change in agricultural and M&I water quality standards. There may be an additional change in water quality standards proposed, regarding winter-spring outflow see page 7).
